● Visit the product backend control page

○ iPhone

Method 1: When CarPlay is connected, iPhone uses Safari/Chrome to visit the URL 192.168.50.100

Method 2: When CarPlay is not connected and the product is powered on/signal light is on, iPhone connects to the product's WiFi (**WiFi name: VehiConn_xxxx, password: 12345678 or 88888888**), after WiFi connection, iPhone uses Safari/Chrome to visit the URL 192.168.50.100. 12345678), after the WiFi is connected, iPhone will use Safari/Chrome to visit the URL 192.168.50.100.

○ Android phone

When Android Auto is already connected, the Android phone can not directly access the product backstage webpage, you need to do the following:

1. in the phone settings, turn off Bluetooth and WiFi, and then turn on WiFi
2. Connect your cell phone to the product WiFi (**WiFi name: VehiConn_xxxx, password 12345678 or 88888888**)
3. After the WiFi is connected, the cell phone can use the browser to access the URL 192.168.50.100.

In the web page, you can modify the setup parameters, give feedback on usage issues, and update the software version.

◦ Tips:

When you give feedback, you need to enter your email address first, and then briefly fill in the problems you encountered, after the submission is successful (Android phones need to turn off the cell phone WiFi and use mobile data to submit), please click to copy the feedback ID that pops up on the webpage, and give the ID to the sales/after-sales staff, and they will follow up to solve the problem.

When updating the version, please keep the power supply of the product stable, don't cut off the power supply on the way of upgrading, the product will restart automatically after the upgrade is completed.

● After-sales service

Dear user, thank you for using this product. In order to protect your rights and interests, we will provide you with high-quality after-sales service. You can enjoy one-year warranty service from the date of purchase (under normal use, the product itself is a failure caused by quality problems). Please keep this card properly, as the necessary proof of warranty service, the company reserves the right to interpret the after-sales service of this product.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
